

You don't have to print out this page to do it.

Drawing From Numbers 3

Follow the steps below to draw something from a number. The number 3.
On each step I am using red to show you what to do next. Continue adding to your original drawing. Don't make all these drawings separate.

Step 1
Draw the number 3

Step 2
Draw a shape like a question mark from the top point on the 3.

Step 3
Make a large curve from the question mark to the left and down below the 3's bottom. Then from the bottom of the 3 make a shape like this one.

Step 4
This is what your drawing should look like at this point. Now, make a mouth and 2 eyes.
(can you still see the number 3?)

Step 5
Now add the ear and a ear if you like. And maybe a collar.

Step 6
This is what your final drawing should look like. You can add hair and buttons if you like.
