Fortune Teller Game

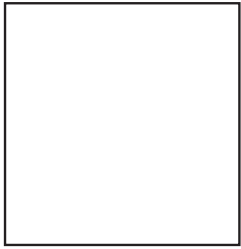

Make a paper fortune teller. Then see all and know all!

Don't know how to use a paper fortune teller.
Ask your parents if you can watch this video:

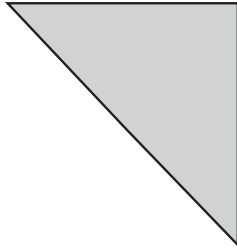

www.youtube.com/watch?v=ZOg6xM-gmFE

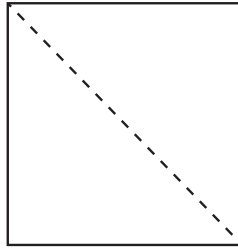

Here is your final Fortune Teller.

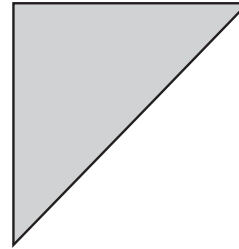

Get a square piece of paper

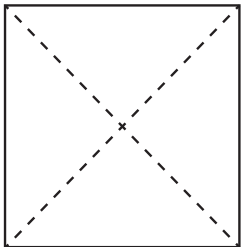

Fold it in half
Corner to
opposite corner

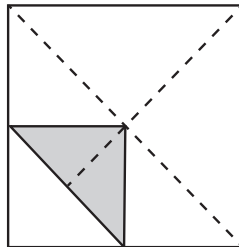

Unfold it.
You will see a
fold line

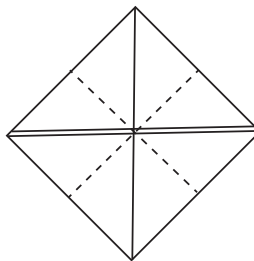

Fold it in half
Corner to
opposite corner
the other way

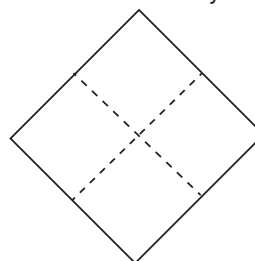

Unfold it and
you will see
fold marks like this.

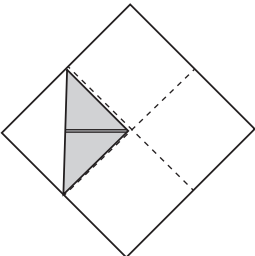

Fold in all 4 corners to
the center -
where your previous fold
marks cross

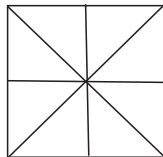

Now your paper
should look like this.
The dotted lines show
your folds

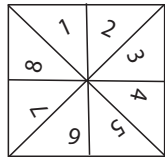

Flip your paper
over so that the
flaps you just
made are down.

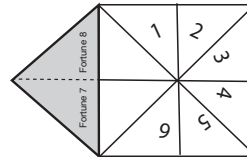

Fold the 4 corners
to the center again.

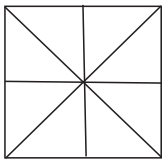

You fortune teller should
now look like this. The
solid lines are
your edges.

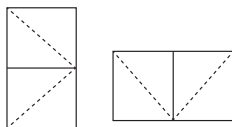

Now label each
section with the
numbers 1 - 8.

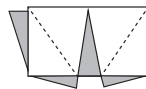

Lift each flap and
write a different
fortune under each
number.

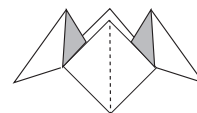

After adding all 8
fortunes, flip your
paper over and
make a different
letter, or number, or
picture in each of
the 4 corner areas.

Fold it sideways like the
first picture above and
then fold it like in the
second picture.

Put your fingers in
under the open
corners. It works best
with 2 hands using
your thumb and index
finger to move the
fortune teller.

This is a picture of
how it will look after
you pull out the
corners. Bring the top
points together when
you start.

This should look like the picture
in the above right corner

Here is a list of fortunes
you could write in your
fortune teller:

- You will get rich
- You will fall in love
- You will not get married
- You will find a treasure
- A New car is coming
